Dear Colleagues,

As the Editor-in-Chief of *Agronomy*, I am pleased to announce the two awardees for the 2017 Agronomy Junior Investigator Travel Awards. **Dr. Pedro Diaz Vivancos**, associate researcher from the University of Murcia, Spain, carries out research to better understand the “Abiotic Stress Protection by Cytosolic Antioxidant Machinery in Plum Plants”. **Dr. Huihui Zhang**, research physical scientist, water management and systems research unit, USDA-ARS, Fort Collins, CO, USA, estimates “crop water use/evapotranspiration by using remotely-sensed information from ground, airborne, and/or satellite sensors”. We had over 30 impressive applicants for this award, and we congratulate our two recipients. More information about their programs is available on these websites:
