Carles Saus-Ortega

The development of health sciences in recent years has made it necessary to implement changes in the training of health professionals from the undergraduate level. This training must include the acquisition of knowledge, skills, and attitudes that ultimately improve patient safety and quality of care. Concurrently, the use of different tools to assess the level of knowledge in certain areas of the training of nurses and analysis of the different study plans allow training to be oriented to the specific needs of each reality.

Nowadays, it is necessary to develop, plan, and utilize new teaching methodologies and tools that allow us to assess and measure the level of knowledge of professionals and students and evaluate the quality of training at the different levels of care. The use of tools and methodologies that enhance virtual environments, advanced practices, gamification, and traditional methodologies must be implemented to improve care practice, optimize and manage health resources, and promote teamwork.

These training innovations must not be excluded from undergraduate training. However, they must be applied to the continuous training of active professionals, who must ensure that they are constantly updated to develop their activity by adapting to new work environments.

MDPI

…vation in healthcare practice settings represents an essential challenge for …rge of training future nurses and active professionals.

MDPI⟍Books
Publishing Open Access Books & Series

MDPI Books offers quality open access book publishing to promote the exchange of ideas and knowledge in a globalized world. MDPI Books encompasses all the benefits of open access – high availability and visibility, as well as wide and rapid dissemination. With MDPI Books, you can complement the digital version of your work with a high quality printed counterpart.

Open Access
Your scholarly work is accessible worldwide without any restrictions. All authors retain the copyright for their work distributed under the terms of the Creative Commons Attribution License.

Author Focus
Authors and editors profit from MDPI's over two decades of experience in open access publishing, our customized personal support throughout the entire publication process, and competitive processing charges as well as unique contributor discounts on book purchases.

High Quality & Rapid Publication
MDPI ensures a thorough review for all published items and provides a fast publication procedure. State-of-the-art research and time-sensitive topics are released with a minimum amount of delay.

High Visibility
Due to our global network and well-known channel partners, we ensure maximum visibility and broad dissemination. Title information of books is sent to international indexing databases and archives, such as the Directory of Open Access Books (DOAB), and the Verzeichnis Lieferbarer Bücher (VLB).

Print on Demand and Multiple Formats
MDPI Books are available for purchase and to read online at any time. Our print-on-demand service offers a sustainable, cost-effective and fast way to publish MDPI Books printed versions.
