Dear Colleagues,

The 2024 International Forum of Equine Medicine, held under the auspices of the 11th Annual Congress of the Chinese Veterinary Medical Association (CVMA), was hosted by the CVMA Chinese Board of Equine Practitioners (CBEP) and the College of Veterinary Medicine at China Agricultural University. The forum, which took place on August 24–25 in Wuhan, Hubei Province, China, brought together equine medical researchers and practitioners from China, the USA, Austria, Korea, and other regions. The forum highlighted advancements in various facets of equine medicine, including internal medicine, surgery, sports medicine, reproductive science, and equine welfare. The forum's primary objective is to facilitate the advancement of equine medical education and research in China, while also cultivating robust international partnerships within the equine academic community.

This Reprint, entitled “The Progress of Equine Medical Research in China and Beyond”, synthesizes the key insights and research presented during the forum. It serves as a comprehensive resource for equine practitioners and researchers worldwide, offering a detailed overview of the current progress in equine medical research, both within China and on the global stage. Additionally, this Reprint marks the launch of the CBEP program, which is conceived to deliver continuous education and a substantial communication platform for Chinese equine practitioners.

MDPI Books offers quality open access book publishing to promote the exchange of ideas and knowledge in a globalized world. MDPI Books encompasses all the benefits of open access – high availability and visibility, as well as wide and rapid dissemination. With MDPI Books, you can complement the digital version of your work with a high quality printed counterpart.

Open Access

Your scholarly work is accessible worldwide without any restrictions. All authors retain the copyright for their work distributed under the terms of the Creative Commons Attribution License.

Author Focus

Authors and editors profit from MDPI's over two decades of experience in open access publishing, our customized personal support throughout the entire publication process, and competitive processing charges as well as unique contributor discounts on book purchases.

High Quality & Rapid Publication

MDPI ensures a thorough review for all published items and provides a fast publication procedure. State-of-the-art research and time-sensitive topics are released with a minimum amount of delay.

High Visibility

Due to our global network and well-known channel partners, we ensure maximum visibility and broad dissemination. Title information of books is sent to international indexing databases and archives, such as the Directory of Open Access Books (DOAB), and the Verzeichnis Lieferbarer Bücher (VLB).

Print on Demand and Multiple Formats

MDPI Books are available for purchase and to read online at any time. Our print-on-demand service offers a sustainable, cost-effective and fast way to publish MDPI Books printed versions.
