Dear Colleagues,

This Reprint, titled "Advanced Therapy in Companion Animals", focuses on the latest innovations and techniques in veterinary medicine aimed at improving the health and well-being of pets. This Reprint explores cutting-edge therapies, including regenerative medicine, gene therapy, immunotherapy, and precision medicine, which are revolutionizing the treatment of chronic and acute conditions in companion animals. By highlighting breakthroughs in diagnostics, personalized treatment plans, and minimally invasive surgical procedures, this Reprint underscores the growing role of advanced technology in extending and enhancing the quality of life for pets. This Reprint also emphasizes the importance of interdisciplinary collaboration between veterinarians, researchers, and biotechnologists to drive further progress in the field. With a combination of case studies, clinical trials, and expert reviews, this Reprint serves as a comprehensive resource for veterinary professionals seeking to stay at the forefront of advanced therapeutic approaches.

MDPI Books offers quality open access book publishing to promote the exchange of ideas and knowledge in a globalized world. MDPI Books encompasses all the benefits of open access – high availability and visibility, as well as wide and rapid dissemination. With MDPI Books, you can complement the digital version of your work with a high quality printed counterpart.

Open Access

Your scholarly work is accessible worldwide without any restrictions. All authors retain the copyright for their work distributed under the terms of the Creative Commons Attribution License.

Author Focus

Authors and editors profit from MDPI's over two decades of experience in open access publishing, our customized personal support throughout the entire publication process, and competitive processing charges as well as unique contributor discounts on book purchases.

High Quality & Rapid Publication

MDPI ensures a thorough review for all published items and provides a fast publication procedure. State-of-the-art research and time-sensitive topics are released with a minimum amount of delay.

High Visibility

Due to our global network and well-known channel partners, we ensure maximum visibility and broad dissemination. Title information of books is sent to international indexing databases and archives, such as the Directory of Open Access Books (DOAB), and the Verzeichnis Lieferbarer Bücher (VLB).

Print on Demand and Multiple Formats

MDPI Books are available for purchase and to read online at any time. Our print-on-demand service offers a sustainable, cost-effective and fast way to publish MDPI Books printed versions.
