Edited by
Andrzej Łukaszewicz
Carlos Tavares Calafate
Wojciech Giernacki

ISBN 978-3-7258-5023-5 (Hardback)
ISBN 978-3-7258-5024-2 (PDF)

The aim of this Special Issue Reprint is to present the current state of knowledge regarding Unmanned Aerial Vehicles (UAVs) in the field of sensors.

With the rapid development of new applications and simulation methods, UAVs can now operate in a wide range of environmental conditions, and are used in an extensive range of human activities due to their flexibility, autonomous control capabilities, size, low cost and high adaptability.

The aim of this collection is to bring together the work of leading researchers in the field of UAVs with an interest in their control, design, navigation and autonomy. The papers included in this Reprint present key challenges affecting UAVs. The authors propose new solutions, approaches and methodologies to address current challenges in the use of UAVs as sensors.

MDPI Books offers quality open access book publishing to promote the exchange of ideas and knowledge in a globalized world. MDPI Books encompasses all the benefits of open access – high availability and visibility, as well as wide and rapid dissemination. With MDPI Books, you can complement the digital version of your work with a high quality printed counterpart.

Open Access

Your scholarly work is accessible worldwide without any restrictions. All authors retain the copyright for their work distributed under the terms of the Creative Commons Attribution License.

Author Focus

Authors and editors profit from MDPI's over two decades of experience in open access publishing, our customized personal support throughout the entire publication process, and competitive processing charges as well as unique contributor discounts on book purchases.

High Quality & Rapid Publication

MDPI ensures a thorough review for all published items and provides a fast publication procedure. State-of-the-art research and time-sensitive topics are released with a minimum amount of delay.

High Visibility

Due to our global network and well-known channel partners, we ensure maximum visibility and broad dissemination. Title information of books is sent to international indexing databases and archives, such as the Directory of Open Access Books (DOAB), and the Verzeichnis Lieferbarer Bücher (VLB).

Print on Demand and Multiple Formats

MDPI Books are available for purchase and to read online at any time. Our print-on-demand service offers a sustainable, cost-effective and fast way to publish MDPI Books printed versions.
