ISBN 978-3-7258-5662-6 (PDF)

This is the Reprint edition of the Special Issue “Inclusive Smart Cities” published in *Smart Cities* by MDPI. This Reprint compiles 14 scholarly articles, including 1 editorial, 4 review articles, 1 project report, and 8 research articles, covering a wide range of relevant topics in inclusive smart cities. The collected articles show that inclusivity is both a guiding principle and a practical necessity for sustainable urban transformation, ensuring that marginalized voices are heard and that digital innovation benefits all. By critically assessing governance models, citizen participation, design practices, and emerging technologies, the collected articles underline from micro, meso, and macro levels that inclusive smart cities are not only promising but achievable through deliberate, collaborative, context-sensitive, and multi-level approaches. As cities worldwide continue to adopt smart solutions, the insights from this Reprint will provide a foundation for researchers, urban planners, policymakers, and innovators to co-create urban environments that are technologically sophisticated, socially just, environmentally friendly, and most importantly accessible to everyone.

MDPI Books offers quality open access book publishing to promote the exchange of ideas and knowledge in a globalized world. MDPI Books encompasses all the benefits of open access – high availability and visibility, as well as wide and rapid dissemination. With MDPI Books, you can complement the digital version of your work with a high quality printed counterpart.

Open Access

Your scholarly work is accessible worldwide without any restrictions. All authors retain the copyright for their work distributed under the terms of the Creative Commons Attribution License.

Author Focus

Authors and editors profit from MDPI's over two decades of experience in open access publishing, our customized personal support throughout the entire publication process, and competitive processing charges as well as unique contributor discounts on book purchases.

High Quality & Rapid Publication

MDPI ensures a thorough review for all published items and provides a fast publication procedure. State-of-the-art research and time-sensitive topics are released with a minimum amount of delay.

High Visibility

Due to our global network and well-known channel partners, we ensure maximum visibility and broad dissemination. Title information of books is sent to international indexing databases and archives, such as the Directory of Open Access Books (DOAB), and the Verzeichnis Lieferbarer Bücher (VLB).

Print on Demand and Multiple Formats

MDPI Books are available for purchase and to read online at any time. Our print-on-demand service offers a sustainable, cost-effective and fast way to publish MDPI Books printed versions.
