Special Issue Reprint

Digital Privacy and Security, 2nd Edition

Edited by: José Braga de Vasconcelos, Hugo Barbosa and Carla Cordeiro

This Reprint is the second edition focusing on digital privacy and security, exploring critical developments in cybersecurity, data protection, and digital trust. It aims to support the exchange of innovative ideas, applied research, and practical solutions in the face of growing threats such as cyber warfare, hacking, and privacy breaches. The content brings together leading perspectives from both academia and industry, fostering a multidisciplinary dialogue on the challenges and advancements in the field. Contributors examine evolving threats, defensive strategies, ethical implications, and emerging technologies shaping the future of digital security. This Reprint provides readers with a comprehensive overview of state-of-the-art research, offering valuable insights for researchers, practitioners, and policymakers seeking to strengthen digital resilience and safeguard information systems.
