The evolution of knowledge management theory and the special emphasis on human and social capital sets new challenges for knowledge-driven and technology-enabled innovation. Emerging technologies including big data and analytics have significant implications for sustainability, policy making, and competitiveness. This edited volume promotes scientific research into the potential contributions knowledge management can make to the new era of innovation and social inclusive economic growth. We are grateful to all the contributors of this edition for their intellectual work. The organization of the relevant debate is aligned around three pillars:

SECTION A. DATA, KNOWLEDGE, HUMAN AND SOCIAL CAPITAL FOR INNOVATION

We elaborate on the new era of knowledge types and the emerging forms of social capital and their impact on technology-driven innovation. Topics include:

- Social Networks
- Smart Education
- Social Capital
- Corporate Innovation
- Disruptive Innovation
- Knowledge integration
- Data-enabled Decision-Making.
