The World Health Organization recognizes that injuries are the leading cause of death and disability to children after their first birthday. There is also high morbidity associated with injuries sustained in childhood, often affecting people for the rest of their lives. For every child who dies from injury, there are several thousand who require medical care, many who live with varying degrees of disability. Children and adolescents (0–19 years of age) are at increased risk of mortality and morbidity due to injuries such as road traffic, burns, falls, poisoning, drowning, self-harm and interpersonal violence. There are proven ways to prevent many child injuries, yet there are still gaps in our knowledge. By understanding the impact of determinants of health (i.e., the social and economic environment, the physical environment and a person's individual characteristics and behaviors), effective prevention interventions can be designed and implemented, with a high return on investment. This Special Issue covers an eclectic range of studies, the common goal of which is to reduce the global burden of child injury-related mortality and morbidity.

MDPI Books offers quality open access book publishing to promote the exchange of ideas and knowledge in a globalized world. MDPI Books encompasses all the benefits of open access – high availability and visibility, as well as wide and rapid dissemination. With MDPI Books, you can complement the digital version of your work with a high quality printed counterpart.

Open Access

Your scholarly work is accessible worldwide without any restrictions. All authors retain the copyright for their work distributed under the terms of the Creative Commons Attribution License.

Author Focus

Authors and editors profit from MDPI's over two decades of experience in open access publishing, our customized personal support throughout the entire publication process, and competitive processing charges as well as unique contributor discounts on book purchases.

High Quality & Rapid Publication

MDPI ensures a thorough review for all published items and provides a fast publication procedure. State-of-the-art research and time-sensitive topics are released with a minimum amount of delay.

High Visibility

Due to our global network and well-known channel partners, we ensure maximum visibility and broad dissemination. Title information of books is sent to international indexing databases and archives, such as the Directory of Open Access Books (DOAB), and the Verzeichnis Lieferbarer Bücher (VLB).

Print on Demand and Multiple Formats

MDPI Books are available for purchase and to read online at any time. Our print-on-demand service offers a sustainable, cost-effective and fast way to publish MDPI Books printed versions.
