ISBN 978-3-0365-0841-2 (PDF)

Dear Colleagues, The approach to diseases is facing novel frontiers: targeting gene and improving person-centered medicine able to easily and specifically detect early stages of pathologies. The present book includes the most futuristic approaches to the identification of cardiac diseases by means of the most recent discoveries in molecular and genetic diagnosis. The articles will give you the opportunity to think of cardiac diseases as adverse conditions which can be more easily detected by means of technologies and the research spirit of us, physicians dedicated to humans' care. Please enjoy this reading.
