Nature-based solutions are a comparatively new field of research regarding the ‘green city’ and a main focus of large European and Global research programs. Nature-based Solutions (NBS) are defined by IUCN as “actions to protect, sustainably manage, and restore natural or modified—in our case urban—ecosystems that address societal challenges effectively and adaptively, simultaneously providing human well-being and biodiversity benefits”. NBS have the aim to support the achievement of society’s development goals and human well-being and public health as well as social welfare in ways that reflect the cultural and societal values of the urban societies and enhance the resilience of ecosystems, their capacity for renewal, their diversity, along with the provision of services. NBS are designed to address major societal challenges related to cities, such as safe and clean housing, fresh air, food security, climate change, water supply, human health, and disaster risk. NBS are intended to produce societal benefits in a fair and equitable way, thus promoting transparency and broad participation as well as learning and education. We focus on the interaction of the instrument of NBS, its benefits, and tradeoffs with urban land, the built environment in cities, and the urban society, in particular in relation to social wealth and public health, also taking stewardship and governance aspects.

MDPI Books offers quality open access book publishing to promote the exchange of ideas and knowledge in a globalized world. MDPI Books encompasses all the benefits of open access – high availability and visibility, as well as wide and rapid dissemination. With MDPI Books, you can complement the digital version of your work with a high quality printed counterpart.

## Open Access

Your scholarly work is accessible worldwide without any restrictions. All authors retain the copyright for their work distributed under the terms of the Creative Commons Attribution License.

## Author Focus

Authors and editors profit from MDPI's over two decades of experience in open access publishing, our customized personal support throughout the entire publication process, and competitive processing charges as well as unique contributor discounts on book purchases.

## High Quality & Rapid Publication

MDPI ensures a thorough review for all published items and provides a fast publication procedure. State-of-the-art research and time-sensitive topics are released with a minimum amount of delay.

## High Visibility

Due to our global network and well-known channel partners, we ensure maximum visibility and broad dissemination. Title information of books is sent to international indexing databases and archives, such as the Directory of Open Access Books (DOAB), and the Verzeichnis Lieferbarer Bücher (VLB).

## Print on Demand and Multiple Formats

MDPI Books are available for purchase and to read online at any time. Our print-on-demand service offers a sustainable, cost-effective and fast way to publish MDPI Books printed versions.
