Coordination Polymers and Metal-Organic Frameworks: Structures and Applications- A Themed Issue in Honor of Professor Christoph Janiak on the Occasion of His 60th Birthday

Edited by: Catherine Housecroft

This themed issue of *Chemistry* is in honor of Professor Christoph Janiak on the occasion of his 60th birthday, and celebrates his innovative contributions to the fields of supramolecular chemistry, coordination polymers, networks and metal-organic frameworks, inorganic/organic hybrid materials and inorganic materials from ionic liquids.
