ISBN 978-3-0365-1538-0 (Hardback)

ISBN 978-3-0365-1537-3 (PDF)

The purpose of this reprint is to discuss the current state, problems and prospects of hydrocarbon resources development on the Arctic shelf. This book examines economic, ecological, geological, and technological aspects of Arctic marine oil and gas resources exploration and development. Important issues covered in the book are safety and ensuring the sustainability of the energy sector. Studies presented in the book address issues of ecologically balanced and socially sustainable development of marine and coastal territories of the Arctic.
