ISBN 978-3-0365-4603-2 (Hardback)
ISBN 978-3-0365-4604-9 (PDF)

The scope of this Special Issue is to collect some of the contributions to the 2nd International Electronic Conference on Biosensors, which was held to gather well-known experts worldwide who are currently working in the field of biosensors and provide an online forum for sharing and exchanging knowledge on this subject.

Biosensors have a very wide range of applications at present, due to their simplicity, low cost and precision, which aim to improve the quality of life. This range covers their use for environmental monitoring, disease detection, food safety, defense, drug discovery, etc. Particular attention was paid to these different topics, including implantable and wearable biosensors, the role of biological and chemical recognition elements, microfluidics and point-of-care testing.

MDPI Books offers quality open access book publishing to promote the exchange of ideas and knowledge in a globalized world. MDPI Books encompasses all the benefits of open access – high availability and visibility, as well as wide and rapid dissemination. With MDPI Books, you can complement the digital version of your work with a high quality printed counterpart.

Open Access

Your scholarly work is accessible worldwide without any restrictions. All authors retain the copyright for their work distributed under the terms of the Creative Commons Attribution License.

Author Focus

Authors and editors profit from MDPI's over two decades of experience in open access publishing, our customized personal support throughout the entire publication process, and competitive processing charges as well as unique contributor discounts on book purchases.

High Quality & Rapid Publication

MDPI ensures a thorough review for all published items and provides a fast publication procedure. State-of-the-art research and time-sensitive topics are released with a minimum amount of delay.

High Visibility

Due to our global network and well-known channel partners, we ensure maximum visibility and broad dissemination. Title information of books is sent to international indexing databases and archives, such as the Directory of Open Access Books (DOAB), and the Verzeichnis Lieferbarer Bücher (VLB).

Print on Demand and Multiple Formats

MDPI Books are available for purchase and to read online at any time. Our print-on-demand service offers a sustainable, cost-effective and fast way to publish MDPI Books printed versions.
