Edited by
Elizabeth B. Torres

ISBN 978-3-0365-5127-2 (Hardback)
ISBN 978-3-0365-5128-9 (PDF)

This book focuses on the proposition of a paradigm shift to enable stratification of the highly heterogeneous autism spectrum disorders, by borrowing from and adapting the precision medicine model. A compilation of 9 rigorously peer-reviewed manuscripts offers new approaches to automatically stratify autism-related genes into different neuropsychiatric and associated neurological disorders and, accordingly, repurpose existing therapies and support systems for each thus uncovered phenotypic subtype. Methods for telemedicine are introduced to scale diagnostics and brought to underrepresented communities, thus diversifying the pool of participants in research and treatments. Biosensor data and methods are introduced to accompany genomics subtyping with precision phenotyping. Importantly, an in-depth review offering a paradigm shift for early detection and treatments of autism is presented through stages of neurodevelopment spanning from the womb to infancy and beyond, across the human lifespan.

MDPI Books offers quality open access book publishing to promote the exchange of ideas and knowledge in a globalized world. MDPI Books encompasses all the benefits of open access – high availability and visibility, as well as wide and rapid dissemination. With MDPI Books, you can complement the digital version of your work with a high quality printed counterpart.

Open Access

Your scholarly work is accessible worldwide without any restrictions. All authors retain the copyright for their work distributed under the terms of the Creative Commons Attribution License.

Author Focus

Authors and editors profit from MDPI's over two decades of experience in open access publishing, our customized personal support throughout the entire publication process, and competitive processing charges as well as unique contributor discounts on book purchases.

High Quality & Rapid Publication

MDPI ensures a thorough review for all published items and provides a fast publication procedure. State-of-the-art research and time-sensitive topics are released with a minimum amount of delay.

High Visibility

Due to our global network and well-known channel partners, we ensure maximum visibility and broad dissemination. Title information of books is sent to international indexing databases and archives, such as the Directory of Open Access Books (DOAB), and the Verzeichnis Lieferbarer Bücher (VLB).

Print on Demand and Multiple Formats

MDPI Books are available for purchase and to read online at any time. Our print-on-demand service offers a sustainable, cost-effective and fast way to publish MDPI Books printed versions.
