The annual scientific conference of the Nutrition Society of New Zealand was held virtually on the 2nd and 3rd December 2021. The aim of the annual conference is to foster discussion and disseminate the results of nutrition-related research. The conference also provides an opportunity for those working in practice to share their experiences and keep up to date with scientific advancements. The theme of the conference was ‘Reconnecting – Tūhono’. One hundred and sixty-nine delegates attended over the two days. The programme comprised five plenary sessions, five concurrent oral sessions, and twenty-three short, prerecorded videos, with the latter serving as a replacement for the traditional poster format. Highlights of the five plenary sessions included presentations on food sovereignty by Dr Bevan Eruti and Christina McKerchar; women’s health by Dr Megan Ogilvie and Dane Baker; sustainable diets by Dr Brent Clothier, Dr Nick Smith, and Dr Cristina Cleghorn; healthy environments for children by Jasmin Jackson; and the gut–brain axis and future foods by Dr Pramod Gopal, Tracey Bear, and Dr Jocelyn Eason. The Muriel Bell Lecture entitled ‘Lick the plate clean: the intersection of food, nutrition, and waste’ was presented by Professor Sheila Skeaff of the Department of Human Nutrition, University of Otago.

MDPI Books offers quality open access book publishing to promote the exchange of ideas and knowledge in a globalized world. MDPI Books encompasses all the benefits of open access – high availability and visibility, as well as wide and rapid dissemination. With MDPI Books, you can complement the digital version of your work with a high quality printed counterpart.

Open Access

Your scholarly work is accessible worldwide without any restrictions. All authors retain the copyright for their work distributed under the terms of the Creative Commons Attribution License.

Author Focus

Authors and editors profit from MDPI's over two decades of experience in open access publishing, our customized personal support throughout the entire publication process, and competitive processing charges as well as unique contributor discounts on book purchases.

High Quality & Rapid Publication

MDPI ensures a thorough review for all published items and provides a fast publication procedure. State-of-the-art research and time-sensitive topics are released with a minimum amount of delay.

High Visibility

Due to our global network and well-known channel partners, we ensure maximum visibility and broad dissemination. Title information of books is sent to international indexing databases and archives, such as the Directory of Open Access Books (DOAB), and the Verzeichnis Lieferbarer Bücher (VLB).

Print on Demand and Multiple Formats

MDPI Books are available for purchase and to read online at any time. Our print-on-demand service offers a sustainable, cost-effective and fast way to publish MDPI Books printed versions.
