Yoshikazu Todaka
Takaya Sato

ISBN 978-3-0365-6132-5 (Hardback)
ISBN 978-3-0365-6131-8 (PDF)

This reprint is a collection of papers in materials science and materials science with a focus on applications and social implementation. The core of this reprint is based on the papers presented at the symposia held at ISATE, an international conference organized by the Organization of National Colleges of Technology in Japan in cooperation with several countries worldwide. This is a compilation of these papers into a reprint. Therefore, this is a wide-ranging collection of papers, including interdisciplinary fields, such as mechanical engineering, electrical and electronic engineering, industrial chemistry, bioengineering, civil and architectural engineering, and agriculture. Science and technology are becoming more critical than ever to create a better future and pass the baton to the next generation in a suitable manner. For this purpose, materials science and materials engineering, which are the foundation of all industries, will become increasingly necessary for their implementation in society. We hope that this Special Issue reprint will be of great help to those who are experimenting with such objectives.

MDPI Books offers quality open access book publishing to promote the exchange of ideas and knowledge in a globalized world. MDPI Books encompasses all the benefits of open access – high availability and visibility, as well as wide and rapid dissemination. With MDPI Books, you can complement the digital version of your work with a high quality printed counterpart.

Open Access

Your scholarly work is accessible worldwide without any restrictions. All authors retain the copyright for their work distributed under the terms of the Creative Commons Attribution License.

Author Focus

Authors and editors profit from MDPI's over two decades of experience in open access publishing, our customized personal support throughout the entire publication process, and competitive processing charges as well as unique contributor discounts on book purchases.

High Quality & Rapid Publication

MDPI ensures a thorough review for all published items and provides a fast publication procedure. State-of-the-art research and time-sensitive topics are released with a minimum amount of delay.

High Visibility

Due to our global network and well-known channel partners, we ensure maximum visibility and broad dissemination. Title information of books is sent to international indexing databases and archives, such as the Directory of Open Access Books (DOAB), and the Verzeichnis Lieferbarer Bücher (VLB).

Print on Demand and Multiple Formats

MDPI Books are available for purchase and to read online at any time. Our print-on-demand service offers a sustainable, cost-effective and fast way to publish MDPI Books printed versions.
