The 10th International Conference on Modern Circuit and System Technologies on Electronics and Communications (MOCAST 2021) will take place in Thessaloniki, Greece, from July 5th to July 7th, 2021. The MOCAST technical program includes all aspects of circuit and system technologies, from modeling to design, verification, implementation, and application. This Special Issue presents extended versions of top-ranking papers in the conference. The topics of MOCAST include:

Analog/RF and mixed signal circuits;
Digital circuits and systems design;
Nonlinear circuits and systems;
Device and circuit modeling;
High-performance embedded systems;
Systems and applications;
Sensors and systems;
Machine learning and AI applications;
Communication;
Network systems;
Power management;
Imagers, MEMS, medical, and displays;
Radiation front ends (nuclear and space application);
