Francesco Mainardi

ISBN 978-3-0365-6990-1 (Hardback)

ISBN 978-3-0365-6991-8 (PDF)

This MDPI booklet lists the articles published in three Special Issues of the journal *Mathematics* devoted to special functions with applications in mathematical physics in the years 2020–2021.

The call for papers considered theories and applications of high transcendental functions, including topics found mainly in the list of keywords:

- Mittag-Leffler and related functions, and their applications in mathematical physics;
- Wright and related functions and their applications in mathematical physics;
- exponential integrals and their extensions with applications in mathematical physics;
- generalized hypergeometric functions and their extensions with applications

However, the Special Issues were not limited to the above list, for example, when the content of a paper was clearly related to some high transcendental functions and their applications.

Special attention was reserved for distinct functions exhibiting some relevance in the framework of the theories and applications of the fractional calculus and in their visualization through illuminating plots.

Both research and survey articles were included in this booklet, according to the content list.

MDPI Books offers quality open access book publishing to promote the exchange of ideas and knowledge in a globalized world. MDPI Books encompasses all the benefits of open access – high availability and visibility, as well as wide and rapid dissemination. With MDPI Books, you can complement the digital version of your work with a high quality printed counterpart.

Open Access

Your scholarly work is accessible worldwide without any restrictions. All authors retain the copyright for their work distributed under the terms of the Creative Commons Attribution License.

Author Focus

Authors and editors profit from MDPI's over two decades of experience in open access publishing, our customized personal support throughout the entire publication process, and competitive processing charges as well as unique contributor discounts on book purchases.

High Quality & Rapid Publication

MDPI ensures a thorough review for all published items and provides a fast publication procedure. State-of-the-art research and time-sensitive topics are released with a minimum amount of delay.

High Visibility

Due to our global network and well-known channel partners, we ensure maximum visibility and broad dissemination. Title information of books is sent to international indexing databases and archives, such as the Directory of Open Access Books (DOAB), and the Verzeichnis Lieferbarer Bücher (VLB).

Print on Demand and Multiple Formats

MDPI Books are available for purchase and to read online at any time. Our print-on-demand service offers a sustainable, cost-effective and fast way to publish MDPI Books printed versions.
