The digital economy has significantly impacted countries throughout the world by contributing to the growth of the economy and the further progress of societies. Recent developments demonstrate that the information and innovation-driven era triggered integration of traditional activities and digital technologies. Moreover, the rise of innovation has been accelerating in emerging industries such as cleantech, the new generation of information technology, biotechnology, and high-end equipment manufacturing. The estimations provided by the World Economic Forum predict that “new value creation over the next decade will be based on digitally enabled platform business models”. Therefore, organizations must change the traditional approaches adopted and capture value in the context of digital disruptions. These tendencies raise a number of management challenges that need to be solved by the efforts of the scientific community. Therefore, this Special Issue provides the platform for a fruitful discussion and the development of relevant theories.

MDPI Books offers quality open access book publishing to promote the exchange of ideas and knowledge in a globalized world. MDPI Books encompasses all the benefits of open access – high availability and visibility, as well as wide and rapid dissemination. With MDPI Books, you can complement the digital version of your work with a high quality printed counterpart.

## Open Access

Your scholarly work is accessible worldwide without any restrictions. All authors retain the copyright for their work distributed under the terms of the Creative Commons Attribution License.

## Author Focus

Authors and editors profit from MDPI's over two decades of experience in open access publishing, our customized personal support throughout the entire publication process, and competitive processing charges as well as unique contributor discounts on book purchases.

## High Quality & Rapid Publication

MDPI ensures a thorough review for all published items and provides a fast publication procedure. State-of-the-art research and time-sensitive topics are released with a minimum amount of delay.

## High Visibility

Due to our global network and well-known channel partners, we ensure maximum visibility and broad dissemination. Title information of books is sent to international indexing databases and archives, such as the Directory of Open Access Books (DOAB), and the Verzeichnis Lieferbarer Bücher (VLB).

## Print on Demand and Multiple Formats

MDPI Books are available for purchase and to read online at any time. Our print-on-demand service offers a sustainable, cost-effective and fast way to publish MDPI Books printed versions.
