The previous Special Issue of the Journal of Clinical Medicine, ‘Integrating Clinical and Translational Research Networks—Building Team Medicine’, which highlighted our collective experience from the City of Hope and was published in 2020, was a huge success. Buoyed by the enthusiastic response from our peers and colleagues, we have embarked on bringing out Volume 2. The basic theme is the same—namely, integrating academic medical centers with the clinical network in various geographic locations to ensure that all patients, regardless of their physical proximity to major medical institutions, can benefit from recent clinical advances. As in the previous volume on the importance of including basic research scientists, our aim here is to highlight translational research approaches that leverage the combined knowledge, skills, experience, expertise, and vision of clinicians in academic medical centers, their affiliated community centers, and hospitals, together with those of basic research scientists. However, here we also strive to include bioinformaticians and data scientists. We look forward to sharing our team medicine experience with our colleagues around the world and trust that they will find the approach described in the articles included in this Special issue useful for guiding their approaches for treating cancer patients.

MDPI Books offers quality open access book publishing to promote the exchange of ideas and knowledge in a globalized world. MDPI Books encompasses all the benefits of open access – high availability and visibility, as well as wide and rapid dissemination. With MDPI Books, you can complement the digital version of your work with a high quality printed counterpart.

### **Open Access**

Your scholarly work is accessible worldwide without any restrictions. All authors retain the copyright for their work distributed under the terms of the Creative Commons Attribution License.

### **Author Focus**

Authors and editors profit from MDPI's over two decades of experience in open access publishing, our customized personal support throughout the entire publication process, and competitive processing charges as well as unique contributor discounts on book purchases.

### **High Quality & Rapid Publication**

MDPI ensures a thorough review for all published items and provides a fast publication procedure. State-of-the-art research and time-sensitive topics are released with a minimum amount of delay.

### **High Visibility**

Due to our global network and well-known channel partners, we ensure maximum visibility and broad dissemination. Title information of books is sent to international indexing databases and archives, such as the Directory of Open Access Books (DOAB), and the Verzeichnis Lieferbarer Bücher (VLB).

### **Print on Demand and Multiple Formats**

MDPI Books are available for purchase and to read online at any time. Our print-on-demand service offers a sustainable, cost-effective and fast way to publish MDPI Books printed versions.
