Digital and Spatial Studies of Religions

www.mdpi.com/books/reprint/7776

Edited by
Z. George Hong

Digital and spatial studies of religions have developed rapidly as prominent research fields over the last two decades. This "spatial turn" has rippled through humanities and social sciences disciplines, and digital and spatial perspectives now occupy a central position in religious studies. However, various research efforts have led to disparate approaches to the digital and spatial study of religions without providing integrated and synergized connections between the digitalization and visualization of religious studies.

This reprint aims to support and promote both digital and spatial studies of religions through interdisciplinary and multidisciplinary perspectives, including those of all historical periods, regions, and religions. Collectively, this reprint demonstrates that digital and spatial studies are unique and constructive ways of discovering, developing, and delivering religious studies that remain undiscovered or unaddressed through conventional research methodology. In an effort to supplement the current digital humanities in general, and the spatial study of religions in particular, the reprint presents theoretical or applied research papers on Chinese religious sites and mapping that are theory-driven, innovative, and data-based.

MDPI\Books
Publishing Open Access Books & Series

MDPI Books offers quality open access book publishing to promote the exchange of ideas and knowledge in a globalized world. MDPI Books encompasses all the benefits of open access – high availability and visibility, as well as wide and rapid dissemination. With MDPI Books, you can complement the digital version of your work with a high quality printed counterpart.

Open Access
Your scholarly work is accessible worldwide without any restrictions. All authors retain the copyright for their work distributed under the terms of the Creative Commons Attribution License.

Author Focus
Authors and editors profit from MDPI's over two decades of experience in open access publishing, our customized personal support throughout the entire publication process, and competitive processing charges as well as unique contributor discounts on book purchases.

High Quality & Rapid Publication
MDPI ensures a thorough review for all published items and provides a fast publication procedure. State-of-the-art research and time-sensitive topics are released with a minimum amount of delay.

High Visibility
Due to our global network and well-known channel partners, we ensure maximum visibility and broad dissemination. Title information of books is sent to international indexing databases and archives, such as the Directory of Open Access Books (DOAB), and the Verzeichnis Lieferbarer Bücher (VLB).

Print on Demand and Multiple Formats
MDPI Books are available for purchase and to read online at any time. Our print-on-demand service offers a sustainable, cost-effective and fast way to publish MDPI Books printed versions.
