ISBN 978-3-0365-8640-3 (PDF)

We are delighted to announce the release of a highly anticipated Special Issue of our esteemed journal, which focuses on exploring the profound impact of LED (Light-Emitting Diode) spectra on the growth and quality of plants. This collection of pioneering research articles presents an in-depth examination of the interactions between LED light and plant physiology, shedding light on the future of sustainable agriculture and horticulture. Within this Special Issue, leading experts and scientists from around the globe delve into the intricate relationship between LED spectra and various aspects of plant development. By meticulously investigating the effects of different wavelengths, intensities, and combinations of LED light on diverse plant species, this compilation promises to revolutionize our understanding of photosynthetic processes and optimize cultivation practices. The articles presented in this Special Issue encompass a wide range of disciplines, including plant physiology, biochemistry, genetics, and biotechnology. They provide captivating insights into the ways in which LED spectra influence plant growth, biomass accumulation, photosynthesis, morphogenesis, flowering, fruiting, secondary metabolite production, and overall crop quality.

MDPI Books offers quality open access book publishing to promote the exchange of ideas and knowledge in a globalized world. MDPI Books encompasses all the benefits of open access – high availability and visibility, as well as wide and rapid dissemination. With MDPI Books, you can complement the digital version of your work with a high quality printed counterpart.

Open Access

Your scholarly work is accessible worldwide without any restrictions. All authors retain the copyright for their work distributed under the terms of the Creative Commons Attribution License.

Author Focus

Authors and editors profit from MDPI's over two decades of experience in open access publishing, our customized personal support throughout the entire publication process, and competitive processing charges as well as unique contributor discounts on book purchases.

High Quality & Rapid Publication

MDPI ensures a thorough review for all published items and provides a fast publication procedure. State-of-the-art research and time-sensitive topics are released with a minimum amount of delay.

High Visibility

Due to our global network and well-known channel partners, we ensure maximum visibility and broad dissemination. Title information of books is sent to international indexing databases and archives, such as the Directory of Open Access Books (DOAB), and the Verzeichnis Lieferbarer Bücher (VLB).

Print on Demand and Multiple Formats

MDPI Books are available for purchase and to read online at any time. Our print-on-demand service offers a sustainable, cost-effective and fast way to publish MDPI Books printed versions.
