Dirk Poelman

ISBN 978-3-03897-242-6 (Softback)
ISBN 978-3-03897-243-3 (PDF)

Belgium is a small country. The days of mining minerals and ores from the former colony, Congo, have long passed by and the last coal mine was closed 25 years ago. Now, there are hardly any physical resources in Belgium which can be exploited in materials research and development or industry. Materials research in Belgium bypasses this drawback by focussing on highly technological research fields, not requiring vast amounts of raw material. This approach includes the development of new analytical methods for the characterization of materials, research into new advanced functional materials as well as defining new industrial processes utilizing existing materials. This book compiles recent review and research papers from Belgian universities, covering a wide range of research disciplines in materials science. It thus presents a contemporary view on materials research activities in Belgium.

MDPI Books offers quality open access book publishing to promote the exchange of ideas and knowledge in a globalized world. MDPI Books encompasses all the benefits of open access – high availability and visibility, as well as wide and rapid dissemination. With MDPI Books, you can complement the digital version of your work with a high quality printed counterpart.

Open Access

Your scholarly work is accessible worldwide without any restrictions. All authors retain the copyright for their work distributed under the terms of the Creative Commons Attribution License.

Author Focus

Authors and editors profit from MDPI's over two decades of experience in open access publishing, our customized personal support throughout the entire publication process, and competitive processing charges as well as unique contributor discounts on book purchases.

High Quality & Rapid Publication

MDPI ensures a thorough review for all published items and provides a fast publication procedure. State-of-the-art research and time-sensitive topics are released with a minimum amount of delay.

High Visibility

Due to our global network and well-known channel partners, we ensure maximum visibility and broad dissemination. Title information of books is sent to international indexing databases and archives, such as the Directory of Open Access Books (DOAB), and the Verzeichnis Lieferbarer Bücher (VLB).

Print on Demand and Multiple Formats

MDPI Books are available for purchase and to read online at any time. Our print-on-demand service offers a sustainable, cost-effective and fast way to publish MDPI Books printed versions.
