Latest Advancements in Next-Generation Semiconductors: Materials and Devices for Wide Bandgap and 2D Semiconductors

www.mdpi.com/books/reprint/8329

Edited by
Zeheng Wang
Jingkai Huang

ISBN 978-3-0365-9511-5 (Hardback)
ISBN 978-3-0365-9510-8 (PDF)

This essential collection, edited by Dr. Zeheng Wang and Dr. Jing-Kai Huang, unveils the latest advancements in semiconductor technology that are considered to be the cornerstone of the modern digital era. Spanning cutting-edge research in semiconductor materials, devices, and systems, this reprint is an indispensable guide through the innovative realms of microelectronics and nanotechnology.

Dive into expert discussions on device architectures, from high-electron-mobility transistors to innovative designs resistant to extreme conditions. Explore the frontiers of material science and fabrication techniques, witnessing groundbreaking methods that enhance device performance and reliability. Uncover the evolving landscape of energy efficiency and power management, crucial for next-generation telecommunications and electric vehicles. Lastly, immerse yourself in the dynamic world of optoelectronics, where advancements in light-based technologies are redefining possibilities.

Bringing together pioneering research papers, this volume is not just an academic resource but a beacon for industry professionals and scholars alike, pointing the way to the future of semiconductor technology.

MDPI Books offers quality open access book publishing to promote the exchange of ideas and knowledge in a globalized world. MDPI Books encompasses all the benefits of open access – high availability and visibility, as well as wide and rapid dissemination. With MDPI Books, you can complement the digital version of your work with a high quality printed counterpart.

Open Access

Your scholarly work is accessible worldwide without any restrictions. All authors retain the copyright for their work distributed under the terms of the Creative Commons Attribution License.

Author Focus

Authors and editors profit from MDPI's over two decades of experience in open access publishing, our customized personal support throughout the entire publication process, and competitive processing charges as well as unique contributor discounts on book purchases.

High Quality & Rapid Publication

MDPI ensures a thorough review for all published items and provides a fast publication procedure. State-of-the-art research and time-sensitive topics are released with a minimum amount of delay.

High Visibility

Due to our global network and well-known channel partners, we ensure maximum visibility and broad dissemination. Title information of books is sent to international indexing databases and archives, such as the Directory of Open Access Books (DOAB), and the Verzeichnis Lieferbarer Bücher (VLB).

Print on Demand and Multiple Formats

MDPI Books are available for purchase and to read online at any time. Our print-on-demand service offers a sustainable, cost-effective and fast way to publish MDPI Books printed versions.
