Silvia Lobmaier

ISBN 978-3-0365-9923-6 (Hardback)
ISBN 978-3-0365-9924-3 (PDF)

This Special Issue provides an update on the diagnosis and management of preeclampsia and fetal growth restriction. New diagnostic approaches for screening as well as innovative maternal surveillance tools are described. Fetal Doppler monitoring methods and specific risk factors (diabetes and obesity) are highlighted as part of this latest edition. The development of further maternal cardiovascular disease is additionally focussed upon.

The findings are relevant and contribute to better understanding this significant fetomaternal disease.
