The Special Issue, "The Adaptability of Residential Planning and Design to World-Changing Events," explores innovative approaches to residential design that can effectively respond to short-, medium-, and long-term challenges posed by recent extreme events such as the COVID-19 pandemic, armed conflicts, and devastating natural disasters. It provides a comprehensive guide to creating residential environments that are not only resilient to the immediate impact of these events but also adaptable to the ongoing challenges and shifts in society. This holistic approach to residential planning and design will pave the way for a more sustainable and resilient future for our communities.

This Special issue aims to reach a wide range of professionals and researchers involved in the fields of architecture, urban planning, engineering, public safety, and disaster management. This will also be of interest to policymakers, developers, and homeowners seeking to create more resilient and adaptable residential environments through the development of new building codes, urban planning strategies, and design guidelines.

MDPI Books offers quality open access book publishing to promote the exchange of ideas and knowledge in a globalized world. MDPI Books encompasses all the benefits of open access – high availability and visibility, as well as wide and rapid dissemination. With MDPI Books, you can complement the digital version of your work with a high quality printed counterpart.

Open Access

Your scholarly work is accessible worldwide without any restrictions. All authors retain the copyright for their work distributed under the terms of the Creative Commons Attribution License.

Author Focus

Authors and editors profit from MDPI's over two decades of experience in open access publishing, our customized personal support throughout the entire publication process, and competitive processing charges as well as unique contributor discounts on book purchases.

High Quality & Rapid Publication

MDPI ensures a thorough review for all published items and provides a fast publication procedure. State-of-the-art research and time-sensitive topics are released with a minimum amount of delay.

High Visibility

Due to our global network and well-known channel partners, we ensure maximum visibility and broad dissemination. Title information of books is sent to international indexing databases and archives, such as the Directory of Open Access Books (DOAB), and the Verzeichnis Lieferbarer Bücher (VLB).

Print on Demand and Multiple Formats

MDPI Books are available for purchase and to read online at any time. Our print-on-demand service offers a sustainable, cost-effective and fast way to publish MDPI Books printed versions.
