This Proceedings reprint comprises a collection of papers which were presented at the European Navigation Conference 2023 (ENC 2023). The conference was held between 31 May and 2 June 2023 at the European Space Research and Technology Centre (ESTEC) in Noordwijk, The Netherlands. Organized by the Netherlands Institute of Navigation, the conference was a part of a series of international conferences held since 1991 under the auspices of the European Group of Institutes of Navigation (EUGIN). The scope of this conference was the science and practice of positioning, navigation, and timing (PNT), aspects of reference trajectory in navigation, and related subjects in their broadest sense. The conference had a particular focus on resilient navigation with dedicated parallel sessions on interference/jamming, spoofing/meaconing, multi-sensor and augmented PNT, alternative and complementary PNT, and low earth orbit (LEO) PNT developments.

MDPI Books offers quality open access book publishing to promote the exchange of ideas and knowledge in a globalized world. MDPI Books encompasses all the benefits of open access – high availability and visibility, as well as wide and rapid dissemination. With MDPI Books, you can complement the digital version of your work with a high quality printed counterpart.

Open Access

Your scholarly work is accessible worldwide without any restrictions. All authors retain the copyright for their work distributed under the terms of the Creative Commons Attribution License.

Author Focus

Authors and editors profit from MDPI's over two decades of experience in open access publishing, our customized personal support throughout the entire publication process, and competitive processing charges as well as unique contributor discounts on book purchases.

High Quality & Rapid Publication

MDPI ensures a thorough review for all published items and provides a fast publication procedure. State-of-the-art research and time-sensitive topics are released with a minimum amount of delay.

High Visibility

Due to our global network and well-known channel partners, we ensure maximum visibility and broad dissemination. Title information of books is sent to international indexing databases and archives, such as the Directory of Open Access Books (DOAB), and the Verzeichnis Lieferbarer Bücher (VLB).

Print on Demand and Multiple Formats

MDPI Books are available for purchase and to read online at any time. Our print-on-demand service offers a sustainable, cost-effective and fast way to publish MDPI Books printed versions.
