The construction industry is a high-hazard industry that comprises a wide range of activities involving construction, alteration, and/or repair and has a significant impact on the health and safety of the workers. Construction workers engage in many activities that may expose them to serious hazards, such as falling from rooftops, unguarded machinery, being struck by heavy construction equipment, electrocution, etc. To promote and maintain safety in the workplace, knowledge about the primary causes of accidents helps to assess the level of safety. Health and safety is a multi-step process that includes the workers at the site, nearby people, supervisors, managers, etc. Effective management of activities and competent site supervision are essential in maintaining healthy and safe conditions. In construction activities, especially, the greater the risk, the greater the degree of hazard control and supervision required. This Special Issue intends to provide an overview of the most recent advances in multidisciplinary research connected to occupational safety in the construction sector and the enhancement of safety.

MDPI Books offers quality open access book publishing to promote the exchange of ideas and knowledge in a globalized world. MDPI Books encompasses all the benefits of open access – high availability and visibility, as well as wide and rapid dissemination. With MDPI Books, you can complement the digital version of your work with a high quality printed counterpart.

Open Access

Your scholarly work is accessible worldwide without any restrictions. All authors retain the copyright for their work distributed under the terms of the Creative Commons Attribution License.

Author Focus

Authors and editors profit from MDPI's over two decades of experience in open access publishing, our customized personal support throughout the entire publication process, and competitive processing charges as well as unique contributor discounts on book purchases.

High Quality & Rapid Publication

MDPI ensures a thorough review for all published items and provides a fast publication procedure. State-of-the-art research and time-sensitive topics are released with a minimum amount of delay.

High Visibility

Due to our global network and well-known channel partners, we ensure maximum visibility and broad dissemination. Title information of books is sent to international indexing databases and archives, such as the Directory of Open Access Books (DOAB), and the Verzeichnis Lieferbarer Bücher (VLB).

Print on Demand and Multiple Formats

MDPI Books are available for purchase and to read online at any time. Our print-on-demand service offers a sustainable, cost-effective and fast way to publish MDPI Books printed versions.
