ISBN 978-3-7258-0645-4 (Hardback)
ISBN 978-3-7258-0646-1 (PDF)

William I. Grosky (or Bill for friends) passed away recently. He received his B.Sc. in Mathematics from MIT in 1965, his M.Sc. in Applied Mathematics from Brown University in 1968, and his Ph.D. from Yale University in 1971. William was a Professor and Chair of the Department of Computer and Information Science at the University of Michigan-Dearborn (UMD). Before joining UMD in 2001, he was a Professor and Chair of the Department of Computer Science at Wayne State University and an Assistant Professor of Information and Computer Science at the Georgia Institute of Technology in Atlanta. His research interests included multimedia information systems, text and image mining, and the semantic web. He was a founding member of Intelligent Media LLC, a Michigan-based company that integrates new media into information technologies. William served as the Editor-in-Chief of the IEEE Multimedia magazine, as well as a Member of the Editorial Boards of many journals; in addition, he served as a Member of several Program Committees of conferences focusing on database and multimedia systems. He published three books and over 150 papers in international conferences and journals. Our community remembers him as an excellent scientist and a very generous, funny, and curious person, passionately delivering lectures and seminars. He was the person to speak to when one needed to brainstorm any new technologies or ideas. He used to state that one of the luxuries of academia is the ability to learn every day. This volume is dedicated to his memory.

MDPI Books offers quality open access book publishing to promote the exchange of ideas and knowledge in a globalized world. MDPI Books encompasses all the benefits of open access – high availability and visibility, as well as wide and rapid dissemination. With MDPI Books, you can complement the digital version of your work with a high quality printed counterpart.

Open Access

Your scholarly work is accessible worldwide without any restrictions. All authors retain the copyright for their work distributed under the terms of the Creative Commons Attribution License.

Author Focus

Authors and editors profit from MDPI's over two decades of experience in open access publishing, our customized personal support throughout the entire publication process, and competitive processing charges as well as unique contributor discounts on book purchases.

High Quality & Rapid Publication

MDPI ensures a thorough review for all published items and provides a fast publication procedure. State-of-the-art research and time-sensitive topics are released with a minimum amount of delay.

High Visibility

Due to our global network and well-known channel partners, we ensure maximum visibility and broad dissemination. Title information of books is sent to international indexing databases and archives, such as the Directory of Open Access Books (DOAB), and the Verzeichnis Lieferbarer Bücher (VLB).

Print on Demand and Multiple Formats

MDPI Books are available for purchase and to read online at any time. Our print-on-demand service offers a sustainable, cost-effective and fast way to publish MDPI Books printed versions.
