"Updates on Breast Cancer" is a comprehensive collection published as a *Cancers* Special Issue that delves into the latest breast cancer research and treatment developments. With a focus on precision medicine, innovative technologies, and personalized patient care, this collection of 18 articles presents a wealth of knowledge and insights for the medical community engaged in breast cancer research and patient care. Breast cancer, one of the most prevalent malignancies globally, continues to be a challenging health concern. In this Special Issue, esteemed experts in the field collaborate to explore diverse aspects of breast cancer, ranging from diagnostics to postoperative surveillance. The aim is to equip healthcare professionals with the tools and information they need to make informed decisions and provide optimal care for breast cancer patients. As readers explore the studies included in the Special Issue "Updates on Breast Cancer," they can discover the remarkable progress achieved through collective efforts, technological innovation, and unwavering commitment. We invited the medical community to embrace these advancements as we work together toward a brighter and more promising future in the fight against breast cancer.
