The field of renovation problems in construction and historic buildings is very broad and has given rise to several fascinating engineering and scientific perspectives.

This Special Issue was proposed and organized with the intention to present recent developments in the field of renovation problems in constructions and historic buildings. The articles highlighted in this Special Issue relate to different aspects of the renovation problems in construction and historic buildings.

It was my pleasure to invite manuscripts for this Special Issue, which mainly focused on novel different renovation problems in constructions and historic buildings.
