The field of vascular interventional radiology has witnessed remarkable advancements, transforming the landscape of patient care for both vascular and non-vascular pathologies. Through minimally invasive techniques, we can now offer therapeutic alternatives with reduced complications to patients who are not eligible for conventional treatments. With the emergence of personalized therapies tailored to specific pathologies, disease stages, and patient characteristics, we find ourselves at the forefront of a new era in medicine where treatments are uniquely tailored to each individual. This Special Issue of the Journal of Personalized Medicine features a comprehensive collection of 16 articles, primarily focusing on embolization, a major theme in vascular interventional radiology. Embolization techniques have revolutionized the field, providing effective treatment options for various conditions. Within this issue, we delve into various aspects of embolization, including the embolization of the prostatic artery, splenic trauma, polycystic liver disease, soft tissue hematomas, pulmonary arteriovenous malformation, gastrointestinal bleeding, and even emerging themes such as musculoskeletal embolization. These articles showcase the breadth and depth of research in the field, offering insights into the latest advancements and personalized approaches in embolization therapies.

MDPI Books offers quality open access book publishing to promote the exchange of ideas and knowledge in a globalized world. MDPI Books encompasses all the benefits of open access – high availability and visibility, as well as wide and rapid dissemination. With MDPI Books, you can complement the digital version of your work with a high quality printed counterpart.

## Open Access

Your scholarly work is accessible worldwide without any restrictions. All authors retain the copyright for their work distributed under the terms of the Creative Commons Attribution License.

## Author Focus

Authors and editors profit from MDPI's over two decades of experience in open access publishing, our customized personal support throughout the entire publication process, and competitive processing charges as well as unique contributor discounts on book purchases.

## High Quality & Rapid Publication

MDPI ensures a thorough review for all published items and provides a fast publication procedure. State-of-the-art research and time-sensitive topics are released with a minimum amount of delay.

## High Visibility

Due to our global network and well-known channel partners, we ensure maximum visibility and broad dissemination. Title information of books is sent to international indexing databases and archives, such as the Directory of Open Access Books (DOAB), and the Verzeichnis Lieferbarer Bücher (VLB).

## Print on Demand and Multiple Formats

MDPI Books are available for purchase and to read online at any time. Our print-on-demand service offers a sustainable, cost-effective and fast way to publish MDPI Books printed versions.
