ISBN 978-3-7258-1657-6 (PDF)

A year after (two years from the beginning), with the completion of this third Special Issue on the Innovative Agri-food Supply Chain (IAFSC), the world is still changing, with serious regional troubles and disputes drastically affecting the global economy and growth. Innovation plays a vital role in modernizing the AFSC towards the 2030 sustainable development goals (SDGs) agenda set by United Nations in 2015 to achieve a sustainable future. Among other things, SDGs provide a basis to end poverty, eradicate hunger, protect the planet, and improve quality of life in the world, ensuring a balance between social, economic, and environmental sustainability.

In this special edition, selected papers on the prospects, challenges, and sustainability of the Innovative AFSC in the new global economy are presented. The driving force of the chain remains, no doubt, the end users of the food, namely, the consumers. The topic of this Special Issue includes modern, state-of-the-art research topics on the subjects of the “primary sector” (five papers), “innovative foods” (one paper), food waste management (three papers), “consumers’ and stakeholders” perceptions of foods (four papers), and food diets (one paper). Overall, a total of 14 papers are presented in this issue.

MDPI Books offers quality open access book publishing to promote the exchange of ideas and knowledge in a globalized world. MDPI Books encompasses all the benefits of open access – high availability and visibility, as well as wide and rapid dissemination. With MDPI Books, you can complement the digital version of your work with a high quality printed counterpart.

Open Access

Your scholarly work is accessible worldwide without any restrictions. All authors retain the copyright for their work distributed under the terms of the Creative Commons Attribution License.

Author Focus

Authors and editors profit from MDPI's over two decades of experience in open access publishing, our customized personal support throughout the entire publication process, and competitive processing charges as well as unique contributor discounts on book purchases.

High Quality & Rapid Publication

MDPI ensures a thorough review for all published items and provides a fast publication procedure. State-of-the-art research and time-sensitive topics are released with a minimum amount of delay.

High Visibility

Due to our global network and well-known channel partners, we ensure maximum visibility and broad dissemination. Title information of books is sent to international indexing databases and archives, such as the Directory of Open Access Books (DOAB), and the Verzeichnis Lieferbarer Bücher (VLB).

Print on Demand and Multiple Formats

MDPI Books are available for purchase and to read online at any time. Our print-on-demand service offers a sustainable, cost-effective and fast way to publish MDPI Books printed versions.
