In 2020, the spread of the severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2 virus) led to the worst worldwide healthcare crisis of this century. Several publications regarding the pathogenesis and etiology of SARS-CoV-2 virus have enhanced our understanding of coronavirus disease, 2019 (COVID-19), the condition provoked by SARS-CoV-2. Once the COVID-19 pandemic ended, clinicians and researchers were faced with the long-lasting consequences of this condition, namely the presence of symptoms persisting years after the main infection; this has been named long-COVID, or post-COVID-19 condition. In fact, it is estimated that millions of COVID-19 survivors will be long haulers. This Special Issue in the *Journal of Clinical Medicine*, entitled "Post-COVID Symptoms in Long-Haulers: Definition, Identification, Mechanisms, and Management-Part II", focuses on the identification, underlying mechanisms, and management of long-COVID. The thirteen papers published in this Special Issue address heterogeneous topics such as risk factors, long-term prevalence data, the healthcare burden, medical co-morbidities, clinical trials concerning rehabilitation treatments, and data concerning children with long-COVID.

MDPI Books offers quality open access book publishing to promote the exchange of ideas and knowledge in a globalized world. MDPI Books encompasses all the benefits of open access – high availability and visibility, as well as wide and rapid dissemination. With MDPI Books, you can complement the digital version of your work with a high quality printed counterpart.

Open Access

Your scholarly work is accessible worldwide without any restrictions. All authors retain the copyright for their work distributed under the terms of the Creative Commons Attribution License.

Author Focus

Authors and editors profit from MDPI's over two decades of experience in open access publishing, our customized personal support throughout the entire publication process, and competitive processing charges as well as unique contributor discounts on book purchases.

High Quality & Rapid Publication

MDPI ensures a thorough review for all published items and provides a fast publication procedure. State-of-the-art research and time-sensitive topics are released with a minimum amount of delay.

High Visibility

Due to our global network and well-known channel partners, we ensure maximum visibility and broad dissemination. Title information of books is sent to international indexing databases and archives, such as the Directory of Open Access Books (DOAB), and the Verzeichnis Lieferbarer Bücher (VLB).

Print on Demand and Multiple Formats

MDPI Books are available for purchase and to read online at any time. Our print-on-demand service offers a sustainable, cost-effective and fast way to publish MDPI Books printed versions.
