Regional Development: Opportunities and Constraints

Edited by
Katarína Vitálišová
Anna Vaňová
Jan Nevima

Cities and regions have always been among the most dynamically developing territories and have played a significant role throughout human history. They have been centers of progress, education, culture, and commerce, centers of economic and social development, and their role in society is constantly growing. The approaches to their development change with the needs of society. Today's globalizing society is characterized by intense transformation. The rapid changes and dynamics of societal development in the economy, technology, and techniques, as well as social and lifestyle changes, have undermined the concept of the supposed stability of the social and business environment. These changes are reflected in the current local and regional development trends, where sustainable cities and regions; green, or eco-cities and regions; sunny cities; creative cities and regions; smart cities and regions; resilient cities and regions; cities as living labs; slow cities and regions; and agile cities and regions belong. This Special Issue "Regional Development: Opportunities and Constraints" includes researchers and academicians who are dedicated to the current opportunities and constraints of urban and regional development based on the various drivers and concepts of development reflecting global challenges. The papers include the form of theoretical contributions moving forward theoretical knowledge, as well as empirical work, presenting original research results on the topic.

Publishing Open Access Books & Series

MDPI Books offers quality open access book publishing to promote the exchange of ideas and knowledge in a globalized world. MDPI Books encompasses all the benefits of open access – high availability and visibility, as well as wide and rapid dissemination. With MDPI Books, you can complement the digital version of your work with a high quality printed counterpart.

Open Access
Your scholarly work is accessible worldwide without any restrictions. All authors retain the copyright for their work distributed under the terms of the Creative Commons Attribution License.

Author Focus
Authors and editors profit from MDPI's over two decades of experience in open access publishing, our customized personal support throughout the entire publication process, and competitive processing charges as well as unique contributor discounts on book purchases.

High Quality & Rapid Publication
MDPI ensures a thorough review for all published items and provides a fast publication procedure. State-of-the-art research and time-sensitive topics are released with a minimum amount of delay.

High Visibility
Due to our global network and well-known channel partners, we ensure maximum visibility and broad dissemination. Title information of books is sent to international indexing databases and archives, such as the Directory of Open Access Books (DOAB), and the Verzeichnis Lieferbarer Bücher (VLB).

Print on Demand and Multiple Formats
MDPI Books are available for purchase and to read online at any time. Our print-on-demand service offers a sustainable, cost-effective and fast way to publish MDPI Books printed versions.
