Under one cover, this reprint collects twelve original research papers and one review paper submitted to the Special Issue “State-of-the-Art Mathematical Applications in Europe” and published in the MDPI journal *Mathematics* from December 2021 to January 2023. This Special Issue published original research papers from European researchers and their collaborators on popular topics in all fields of mathematics. The Editors received papers from Spain, Slovenia, Romania, Italy, Greece, Russia, Montenegro, and Turkey. Most of the contributions were related to various fields in applied mathematics, and several papers addressed problems in pure mathematics, particularly algebra.
