Valentin Titus Grigorean
Daniel Alin Cristian

ISBN 978-3-7258-1843-3 (Hardback)
ISBN 978-3-7258-1844-0 (PDF)

Cancer is the leading cause of death worldwide, accounting for more than 10 million deaths each year and an even larger number of patients who are diagnosed with this disease and have to undergo various procedures. All of this has happened following the increased number of risk factors that have impacted our lives over the past few decades, such as tobacco use, obesity and different unhealthy diets, alcohol consumption, viral infections, and exposure to certain chemicals or radiation. Our goal as medical practitioners or scientists is to obtain the best outcome for our patients, from prophylactic procedures to a correct diagnosis, specific multimodal treatment, and rigorous follow-up. All of these factors have significantly improved in the last few years because of a better understanding of the genetic and molecular mechanisms of cancer development, the emergence of new technologies in cancer detection or surgical techniques, and breakthroughs in oncological therapies. However, there remains a huge field to explore, considering the current unknowns and the alert dynamics under which cancer evolves. Oncology is the medical field that requires the mobilization of most medical specialties in order to outline the particular profile of each individual patient and optimize the necessary treatment.

MDPI Books offers quality open access book publishing to promote the exchange of ideas and knowledge in a globalized world. MDPI Books encompasses all the benefits of open access – high availability and visibility, as well as wide and rapid dissemination. With MDPI Books, you can complement the digital version of your work with a high quality printed counterpart.

Open Access

Your scholarly work is accessible worldwide without any restrictions. All authors retain the copyright for their work distributed under the terms of the Creative Commons Attribution License.

Author Focus

Authors and editors profit from MDPI's over two decades of experience in open access publishing, our customized personal support throughout the entire publication process, and competitive processing charges as well as unique contributor discounts on book purchases.

High Quality & Rapid Publication

MDPI ensures a thorough review for all published items and provides a fast publication procedure. State-of-the-art research and time-sensitive topics are released with a minimum amount of delay.

High Visibility

Due to our global network and well-known channel partners, we ensure maximum visibility and broad dissemination. Title information of books is sent to international indexing databases and archives, such as the Directory of Open Access Books (DOAB), and the Verzeichnis Lieferbarer Bücher (VLB).

Print on Demand and Multiple Formats

MDPI Books are available for purchase and to read online at any time. Our print-on-demand service offers a sustainable, cost-effective and fast way to publish MDPI Books printed versions.
