Development and Modification of New or Recycled Materials and Technological Processes toward Sustainable Development

www.mdpi.com/books/reprint/9799

Edited by Pavol Liptai Jaroslav Briančin Maroš Halama

ISBN 978-3-7258-1858-7 (Hardback) ISBN 978-3-7258-1857-0 (PDF)

Numerous researchers are attempting to develop various recycling technologies to recover high-quality raw materials, while others are working on methods to reduce or prevent waste, or developing technologies to eliminate water, soil or air pollution. Many are looking for strategies to optimize technological processes to minimize their environmental impact or ensure that the outputs of these processes are products that will be efficiently recycled at the end of their life cycle. However, it should be noted that for these efforts to be impactful, collective contributions are necessary rather than relying on others to solve the problems.

MDPI Books offers quality open access book publishing to promote the exchange of ideas and knowledge in a globalized world. MDPI Books encompasses all the benefits of open access – high availability and visibility, as well as wide and rapid dissemination. With MDPI Books, you can complement the digital version of your work with a high quality printed counterpart.

Open Access

Your scholarly work is accessible worldwide without any restrictions. All authors retain the copyright for their work distributed under the terms of the Creative Commons Attribution License.

Author Focus

Authors and editors profit from MDPI's over two decades of experience in open access publishing, our customized personal support throughout the entire publication process, and competitive processing charges as well as unique contributor discounts on book purchases.

High Quality & Rapid Publication

MDPI ensures a thorough review for all published items and provides a fast publication procedure. State-of-the-art research and time-sensitive topics are released with a minimum amount of delay.

High Visibility

Due to our global network and well-known channel partners, we ensure maximum visibility and broad dissemination. Title information of books is sent to international indexing databases and archives, such as the Directory of Open Access Books (DOAB), and the Verzeichnis Lieferbarer Bücher (VLB).

Print on Demand and Multiple Formats

MDPI Books are available for purchase and to read online at any time. Our print-on-demand service offers a sustainable, cost-effective and fast way to publish MDPI Books printed versions.
