

Special Issue Reprint

Sustainable Development of Food Waste Biorefineries

www.mdpi.com/books/reprint/9835

Edited by Jose Luis García-Morales Francisco Jesús Fernández Morales

ISBN 978-3-7258-1978-2 (Hardback) ISBN 978-3-7258-1977-5 (PDF)

Discover the transformative potential of food waste biorefineries in this comprehensive Reprint entitled "Sustainable Development of Food Waste Biorefineries". As the world faces new challenges, innovative solutions are crucial to ensuring a sustainable future. This Reprint presents cutting-edge research and insights into how biorefineries can transform food waste management and contribute to the circular economy.

Delve into a rich collection of articles that explore the latest advancements in converting food waste into valuable bioproducts. From novel pretreatment technologies and enzymatic processes to groundbreaking microbial fermentation techniques, this Reprint covers a wide array of topics crucial to the efficient and sustainable development of food waste biorefineries

Written by leading experts in the field, this Reprint is an indispensable resource for researchers, policymakers, and industry practitioners dedicated to sustainable development. Whether you are looking to stay abreast of the latest scientific breakthroughs or seeking practical solutions to implement in your work, this Reprint offers the knowledge and inspiration needed to drive the change.

MDPI Books offers quality open access book publishing to promote the exchange of ideas and knowledge in a globalized world. MDPI Books encompasses all the benefits of open access – high availability and visibility, as well as wide and rapid dissemination. With MDPI Books, you can complement the digital version of your work with a high quality printed counterpart.

Open Access

Your scholarly work is accessible worldwide without any restrictions. All authors retain the copyright for their work distributed under the terms of the Creative Commons Attribution License.

Author Focus

Authors and editors profit from MDPI's over two decades of experience in open access publishing, our customized personal support throughout the entire publication process, and competitive processing charges as well as unique contributor discounts on book purchases.

High Quality & Rapid Publication

MDPI ensures a thorough review for all published items and provides a fast publication procedure. State-of-the-art research and time-sensitive topics are released with a minimum amount of delay.

High Visibility

Due to our global network and well-known channel partners, we ensure maximum visibility and broad dissemination. Title information of books is sent to international indexing databases and archives, such as the Directory of Open Access Books (DOAB), and the Verzeichnis Lieferbarer Bücher (VLB).

Print on Demand and Multiple Formats

MDPI Books are available for purchase and to read online at any time. Our print-on-demand service offers a sustainable, cost-effective and fast way to publish MDPI Books printed versions.
