Special Issue Reprint

Recent Developments in the Synthesis and Functionalization of Nitrogen Heterocycles

www.mdpi.com/books/reprint/9881

Edited by
Alexey M. Starosotnikov
Maxim A. Bastrakov
Igor L. Dalinger

ISBN 978-3-7258-2079-5 (Hardback)
ISBN 978-3-7258-2080-1 (PDF)

The purpose of this reprint is to introduce the reader to the latest advances in the chemistry of N-heterocycles, such as the synthesis, reactivity, and applications of aromatic and saturated nitrogen heterocyclic compounds. The role of N-heterocycles in human life is difficult to overestimate; their diverse application spans from the pharmaceutical industry to the production of energetic materials, dyes, and non-linear optical materials, among many other areas. With this reprint, we aim to highlight the most recent and most promising research results in this field, presented in the form of original articles and high-quality reviews.

MDPI Books offers quality open access book publishing to promote the exchange of ideas and knowledge in a globalized world. MDPI Books encompasses all the benefits of open access – high availability and visibility, as well as wide and rapid dissemination. With MDPI Books, you can complement the digital version of your work with a high quality printed counterpart.

Open Access

Your scholarly work is accessible worldwide without any restrictions. All authors retain the copyright for their work distributed under the terms of the Creative Commons Attribution License.

Author Focus

Authors and editors profit from MDPI's over two decades of experience in open access publishing, our customized personal support throughout the entire publication process, and competitive processing charges as well as unique contributor discounts on book purchases.

High Quality & Rapid Publication

MDPI ensures a thorough review for all published items and provides a fast publication procedure. State-of-the-art research and time-sensitive topics are released with a minimum amount of delay.

High Visibility

Due to our global network and well-known channel partners, we ensure maximum visibility and broad dissemination. Title information of books is sent to international indexing databases and archives, such as the Directory of Open Access Books (DOAB), and the Verzeichnis Lieferbarer Bücher (VLB).

Print on Demand and Multiple Formats

MDPI Books are available for purchase and to read online at any time. Our print-on-demand service offers a sustainable, cost-effective and fast way to publish MDPI Books printed versions.
