ISBN 978-3-7258-2083-2 (Hardback)

ISBN 978-3-7258-2084-9 (PDF)

This reprint delves into the cutting-edge intersection of Unmanned Aerial Vehicles (UAV) and Artificial Intelligence (AI), offering a comprehensive look at how these technologies are revolutionizing vegetation monitoring, target tracking, and various other applications. Featuring 15 in-depth articles, this Special Issue explores the potential of UAV multispectral and hyperspectral imagery for real-time dynamic monitoring and for the development of innovative methods for data interpretation. Some key features include, but are not limited to, the following:

- Focus on the application of AI techniques to process and model data from UAV sensors.
- Detailed analysis of UAV imagery in vegetation growth monitoring and dynamic target tracking.
- Topics include crop physical and chemical parameter inversion, crop growth monitoring, building extraction, and pest and disease forecasting.
- Novel approaches to extracting valuable information from UAV imagery.
- Essential reading for researchers, professionals, and students interested in UAV and AI integration.

MDPI Books offers quality open access book publishing to promote the exchange of ideas and knowledge in a globalized world. MDPI Books encompasses all the benefits of open access – high availability and visibility, as well as wide and rapid dissemination. With MDPI Books, you can complement the digital version of your work with a high quality printed counterpart.

### **Open Access**

Your scholarly work is accessible worldwide without any restrictions. All authors retain the copyright for their work distributed under the terms of the Creative Commons Attribution License.

### **Author Focus**

Authors and editors profit from MDPI's over two decades of experience in open access publishing, our customized personal support throughout the entire publication process, and competitive processing charges as well as unique contributor discounts on book purchases.

### **High Quality & Rapid Publication**

MDPI ensures a thorough review for all published items and provides a fast publication procedure. State-of-the-art research and time-sensitive topics are released with a minimum amount of delay.

### **High Visibility**

Due to our global network and well-known channel partners, we ensure maximum visibility and broad dissemination. Title information of books is sent to international indexing databases and archives, such as the Directory of Open Access Books (DOAB), and the Verzeichnis Lieferbarer Bücher (VLB).

### **Print on Demand and Multiple Formats**

MDPI Books are available for purchase and to read online at any time. Our print-on-demand service offers a sustainable, cost-effective and fast way to publish MDPI Books printed versions.
