We are delighted to announce the launch of *Aeronautics* (ISSN: 3043-1514) [1], a new international, peer reviewed, open access journal published quarterly online by MDPI.

This journal will join MDPI's existing leading journals in this domain [2], including *Aerospace* [3] and *Drones* [4] (focusing on unmanned aerial systems and their applications). *Aerospace* [3] covers both fields: aeronautics and astronautics. We recently launched *Astronautics* [5] as a daughter journal to *Aerospace* [3]; the logical next step is therefore to launch *Aeronautics* [1] as a sister journal to *Astronautics* [5].

As with other MDPI journals, we will maintain a fast and rigorous peer-review process for this new journal. We hope that you will enjoy publishing with us.

Conflicts of Interest: The authors declare no conflicts of interest.
