Text Correction

There was an error in the original publication [1]. We mistakenly reported that there was an “... estimated 1,000,000 pet ferrets in the UK [13]”. This should have read as an “... estimated 100,000 pet ferrets in the UK [13]”.

A correction was implemented in Section 1 in the second paragraph of the Introduction: “... an estimated 100,000 pet ferrets in the UK [13]”.

The authors state that the scientific conclusions are unaffected. This correction was approved by the Academic Editor. The original publication has also been updated.
