In the original publication [1], a mistake was made, and the article was published online without the required ethical statements in the back matter. The authors did supply these statements at submission, but they were inadvertently omitted from the final proofs. The newly added part is listed below. The authors have agreed to the correction, and the correction was approved by the Academic Editor.

Institutional Review Board Statement: The study was conducted in accordance with the Declaration of Helsinki and approved by the local ethics committees of the Chamber of Physicians Westfalen-Lippe and the medical faculty of the University of Münster (approval code 2014-048-b-S, 25 August 2014).

Informed Consent Statement: Informed consent was obtained from all subjects involved in the study.
