aerospace

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Konstantinos Kontis

Message from the Editor-in-Chief

You are welcome to contribute a research article or a comprehensive review for consideration and publication in *Aerospace* (ISSN 2226-4310), an on-line, open access journal. *Aerospace* adheres to rigorous peer-review as well as editorial processes and publishes high quality manuscripts that address both the fundamentals and applications of aeronautics and astronautics. Our goal is to enable rapid dissemination of high impact works to the scientific community.

Author Benefits

-  **Open Access** Unlimited and free access for readers
-  **No Copyright Constraints** Retain copyright of your work and free use of your article
-  **No Space Constraints, No Extra Space or Color Charges** No restriction on the maximum length of the papers, number of figures or colors
-  **Journal Rank** JCR - Q1 (*Engineering, Aerospace*)
-  **Coverage by Leading Indexing Services** Scopus, SCIE (Web of Science), Inspec, and many other databases
-  **Rapid Publication** First decision provided to authors approximately 21.8 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the second half of 2022)

Aims and Scope

Aerospace (ISSN 2226-4310) is an international, peer-reviewed, open access journal devoted to the rapid publication of original papers, review articles, and communications related to all fields of aerospace science, engineering and technology, disclosing theoretical, fundamental and applied results linked to potential applications that are related to research, design, manufacture, operations, control and maintenance of aircraft and spacecraft. Researchers are encouraged to publish the results of their recent theoretical and experimental developments with as much detail as possible. There is no restriction on the maximum length of the papers. We aim to publish high impact experimental and theoretical findings with very rapid turnaround time.
