Message from the Editor-in-Chief

I’m thrilled to take the leadership reins of the *International Journal of Financial Studies* and welcome the opportunity to make it one of the vanguard open-source scientific journals in our field. I eagerly look forward to working with the journal editorial team in building upon the quality instilled by my predecessor to develop the title further and broaden the appeal to other new finance research areas while keeping our core a high-quality finance journal that serves and highly values the scientific community, readers and authors alike. I’m very excited by the promise of this outlet and will strive to move toward the journal’s goals by positioning it well to meet the nowadays’ highly competitive publishing environment. *IJFS* aims to publish high-quality manuscripts in both theoretical and empirical finance spanning all the major research areas in the field. It aims to provide an outlet for original finance scholarly research that promotes interaction among finance scholars and practitioners and bridges the divide that can exist between them.

**Author Benefits**

- **Open Access**  Unlimited and free access for readers
- **No Copyright Constraints**  Retain copyright of your work and free use of your article
- **Thorough Peer-Review**
- **No Space Constraints, No Extra Space or Color Charges**  No restriction on the maximum length of the papers, number of figures or colors
- **Rapid Publication**  First decision provided to authors approximately 25.8 days after submission; acceptance to publication is undertaken in 6.2 days (median values for papers published in this journal in the second half of 2022)
Aims and Scope

*IJFS* (ISSN 2227-7072) is an international, peer-reviewed scholarly open access journal on the financial market, instruments, policy and management research. It publishes reviews, regular research papers, and communications. Our aim is to encourage scientists to publish their experimental and theoretical research in as much detail as possible.
