The Society for Urban Ecology (SURE), Canadian Urban Transit Research & Innovation Consortium (CUTRIC) and International Council for Research and Innovation in Building and Construction (CIB) are affiliated with Sustainability.
Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

- **Open Access** Unlimited and free access for readers
- **No Copyright Constraints** Retain copyright of your work and free use of your article
- **Thorough Peer-Review**
- **2020 Impact Factor: 3.251** *(Journal Citation Reports - Clarivate, 2021)*
- **Discounts on Article Processing Charges (APC)** If you belong to an institute that participates with the MDPI Institutional Open Access Program
- **No Space Constraints, No Extra Space or Color Charges** No restriction on the length of the papers, number of figures or colors
- **Coverage by Leading Indexing Services** Scopus, SCIE and SSCI (Web of Science), GEOBASE, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and many other databases
Aims and Scope

Our aim is to encourage experts to publish their experimental, computational and theoretical research on sustainability. This encompasses topics related to social sciences, natural and applied science and engineering, in order to enable the application and development of sustainability.

Subject Areas

Defining, quantifying, measuring, and monitoring sustainability
Environmental management and conservation
Resources and sustainable utilization
Climate change
Sustainability of energy resources
Sustainable regional planning and development
Sustainable economic development and business management
Sustainable supply chains, logistics, and transportation
Food consumption and safety
Sustainable agriculture
Sustainability, biodiversity and conservation
Education for sustainability
Sustainable tourism, culture preservation, and heritage conservation
Relation of geographical changes and social development to sustainability
Psychological aspects of sustainability and sustainable development
Health and sustainability
Hazards and sustainability
Sustainable materials
