# Message from the Editor-in-Chief

*Technologies*, provides a single focus for reporting on developments of all technologies, regardless of their application. It is our intention that *Technologies* becomes the journal of choice for both researchers wanting to publish their work and technologists wishing to exploit the high quality research across a wide range of potential applications. Through its open access policy, its quick publication cycle, *Technologies* will facilitate the rapid uptake and development of the research presented, ultimately providing benefit to the wider society.

## Aims

*Technologies* (ISSN 2227-7080) is an open access, peer-reviewed journal that provides an advanced forum for the latest in technological studies for both researchers and professionals in an array of related disciplines. The journal aims to cover the latest advancements in technologies that can support humankind in the future. The journal publishes various article types including research papers, reviews, and communications, as well as Special Issues on targeted subjects of current and future relevance.

The aim of *Technologies* is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. Therefore, the journal has no restriction on the maximum length of the papers. Full experimental details should be provided so that the results can be reproduced. Electronic files and software regarding the full details of calculations or experimental procedures, if unable to be published in a normal way, can be deposited as supplementary electronic material.

---

## Scope

- Advances in Machine Learning and Artificial Intelligence-based Technologies
- Information and Communication Technologies
- Advances in Computer Science and Engineering Technologies
- Advances in Materials Science and Materials Processing Technologies
- Assistive Technologies
- Medical Technologies
- Advances in Electronics
- Environmental Technologies
- Manufacturing Technologies
- Advances in Construction Technologies
- Quantum Technologies
- Advances in Future Engineering Technologies

---

## Author Benefits

### Open Access

Unlimited and free access for readers

### No Copyright Constraints

Retain copyright of your work and free use of your article

### Thorough Peer-Review

### Discounts on Article Processing Charges (APC)

If you belong to an institute that participates with the MDPI Institutional Open Access Program

### No Space Constraints, No Extra Space or Color Charges

No restriction on the maximum length of the papers, number of figures or colors

### Journal Rank

JCR - Q1 (Engineering, Multidisciplinary)  
/ CiteScore - Q1 (Computer Science (miscellaneous))

### Coverage by Leading Indexing Services

ESCI (Web of Science), Scopus, Inspec, Ei Compendex, INSPIRE, and other databases

### Rapid Publication

A first decision is provided to authors approximately 21.8 days after submission; acceptance to publication is undertaken in 3.9 days (median values for papers published in this journal in the first half of 2025)
