Message from the Editor-in-Chief

Biomedicines (ISSN 2227-9059) is an open access journal devoted to all aspects of research on human health and disease, the discovery and characterization of new therapeutic targets, therapeutic strategies, and research of naturally driven biomedicines, pharmaceuticals, and biopharmaceutical products. Topics include pathogenesis mechanisms of diseases, translational medical research, biomaterial in biomedical research. natural bioactive molecules, biologics, biosimilar, vaccines, gene therapies, cell-based therapies, targeted specific antibodies, recombinant therapeutic proteins, nanobiotechnology driven products, targeted therapy, bioimaging, biosensors, biomarkers, biosimilars, and nano-biosimilars. The journal is open for publication of studies conducted at the basic science and preclinical research levels. We invite you to consider submitting your work to Biomedicines, be it original research, review articles, or developing Special Issues of current key topics.

Editor-in-Chief

Prof. Dr. Felipe Fregni

Section Editors-in-Chief

Dr. Veronique Baud Prof. Dr. Jun Lu Prof. Dr. Bruno Meloni Prof. Dr. Paul Rösch Dr. Bernard Lebleu Prof. Dr. Manfredi Tesauro Prof. Dr. Stephen Riordan

Aims

Biomedicines publishes high-quality papers that address the challenges in bringing biological agents or novel targeted strategies through identification, development, and, ultimately, to clinical use. Therefore, laboratory medicine research, translation medical research, comprehensive preclinical studies, and most clinical studies focused on development and early phase clinical trials are all within the scope of the journal.

Scope

- Pathogenesis and mechanisms of diseases
- Cardiovascular diseases
- Biomaterial in biomedical research
- Novel targets in various therapeutic areas: cardiovascular, vascular, hematology, oncology, neurology, orthopedics, dermatology, ophthalmology
- Biomarker discovery and early diagnosis research
- Drug discovery and drug development, biomedicine, and pharmacotherapy
- Biopharmaceutical biomedicine: biologics, and biosimilars
- Nanobiotechnological advances in biomedicine: nanomedicine, nanoscaffold implants (synthetic vascular graft), biosensors, bioimaging, gene therapy, vaccine, cell therapy, and tissue engineering
- Neurobiology and clinical neuroscience
- Neuromodulation

Author Benefits

Open Access

Unlimited and free access for readers

No Copyright Constraints

Retain copyright of your work and free use of your article

Thorough Peer-Review

No Space Constraints, No Extra Space or Color Charges

No restriction on the maximum length of the papers, number of figures, or use of colors

Journal Rank

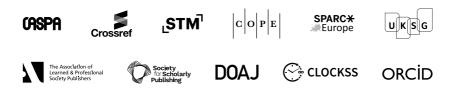

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q2 (Medicine (miscellaneous))

Coverage by Leading Indexing Services

Scopus, SCIE (Web of Science), PubMed, PMC, CAPlus / SciFinder, and other databases

Rapid Publication

A first decision is provided to authors approximately 14.6 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the second half of 2024) MDPI is a member of
